

ARTTRA Inc., Corporate Overview:

ARTTRA Inc., specializes in providing expertise within Information Technology. We provide Enterprise IT, Network Engineering, and System Administration services. ARTTRA continues to support Commercial and Government Agencies. We currently support the DoD using multiple network appliances to perform end to end encryption. Our personnel provide administration of network switching and routing devices as well as systems development and programming capabilities. We are certified by the Small Business Administration as an 8(a) and Hub Zone. We are also certified by The Center for Veterans Enterprise (CVE) as a Service-Disabled Veteran Owned Small Business (SDVOSB).

Core Competencies:

ARTTRA Inc. has supported multiple realms within the information technology arena. Our team will work with you in the areas below to determine the technology and service needs that are right for your organization

- ◆ Systems & Network Administration Services
- ◆ SharePoint & Help Desk Administration Services
- ◆ Database Administration Services
- ◆ Network Operations Management
- ◆ Information Assurance Services
- ◆ Enterprise IT Professional Services

Past Performance:

ARTTRA Inc Network Operations support within DoD. We configure and deploy network communications equipment within a 3-tier classification network. We support the Navy with SharePoint development services and are currently teamed to support TRADOC Mission Support Services for the United States Army in the areas of Software Engineering, Helpdesk services, and SharePoint Administration. We support the FAA with programming and procurement services as well as procurement services for the USAF.

We support the Secretary of Defense Communications while performing Network Administration and the Defense Intelligence Agency (DIA) in Cyber Network Defense, Information Assurance, and Network Engineering.

We support the Navy Marine Corps Intranet (NMCI) Next Generation Enterprise Network (NGEN) Contract with Network Engineering Services.

We provided Information Assurance Support (ISSO) to the Department of Homeland Security within the Cyber Security Division. We also performed Microsoft SharePoint front-end development to institute a central dashboard for the prioritization, collaboration, and review of data from disparate sources.

We are solutions driven, team focused, and our personnel have the proven ability to work together and deliver creative solutions for complex requirements within tight schedules and within budget. Our team consists of Veteran personnel and other professionals who have currently or previously supported the United States Military and Department of Veterans Affairs (VA).
